Date: Friday, June 21, 2019 10:51:02 AM

CLASSIFICATION: (b) (6)

Admiral, Ma'am,

(U//) On 20 June, Office of Naval Intelligence (ONI) analysts provided a brief regarding unresolved aerial vehicle detections to Senate Armed Services Committee (SASC) MLAs. The brief was well received and fulfilled the MLA's request for increased knowledge on the topic.

(U//) There are no significant due outs related to this engagement (b) (5)
Of note, Navy OLA is coordinating updates to the following on this topic: HASC PSMs, HPSCI Members and PSMs, and Congressional Research Office.

All,

Attached is the updated briefing list. One add from last week to include the Senate Commerce Committee PSMs. FYSA, I am emphasizing to all these PSMs that the brief is at the TS or TS/SI level.

Also, I am planning to use the 16 July date with Sen Kaine as a target of opportunity to load that day up for briefs and updates. This will force us to stay on the Hill all day, but we can know out a bunch of briefs at the same time.

More to follow!

(b) (6)

All,

Good morning. Just gauging your schedules for July. There are quite a few folks from Congress that desire updates. If possible, I want to corral them into a schedule that works for your calendars. Unknown how likely I will be as it is tough to coordinate Member's calendars. Please let me know what days will work for all of these updates, probably beginning the week of 15 July.

As of now this is the total list we have:

1. Congressional Research Service, (b) (6) (b) (6)

- Date: 18 July
- Time: 1000-1100
- Location: ONI

2. HPSCI Members and PSMs

- Date: TBD, mid-July
- Time: TBD
- Location: HVC-304

3. Sen. Schatz (D-HI)

- Date: TBD
- Time: TBD
- Location: SVC-217

4. Reb Steube (R-FL)

- Date: TBD
- Time: TBD
- Location: HVC-301

5. House Science Committee PSMs

- Date: TBD
- Time: TBD
- Location: TBD

6. SAC-D

- Date: TBD, Proposed 25 or 26 July
- Time: TBD
- Location: Senate Side

Thanks for your assistance.

All,

Looks like the UAP question came up yesterday during a question and answer session between SSCI Members and DIA Director. The UAP question came up, but the Director deferred it to the Navy. No in depth discussion occurred.

Looks like there may be a SSCI UAP briefing request coming plus a request from DIA Director.

(U//) AAR on Unexplained Aerial Phenomena to SSCI and SASC PSMs , 23 Oct 2019

Categories:

Green Category

Classification:

Admiral,

(U//) On 23 Oct, Office of Naval Intelligence (ONI), Office of Under Secretary of Defense for Intelligence (OUSD(I)) and Federal Aviation Administration (FAA) representatives provided a brief regarding unexplained aerial phenomena (UAP) detections to Senate Select Committee on Intelligence (SSCI) and Senate Armed Services Committee (SASC) Professional Staff Members (PSM) as well as the Majority and Minority Senate National Security Advisors (NSA). The brief was well received and PSMs asked similar questions as those asked during previous Hill engagements. However, SASC and SSCI PSM were frustrated by the slow pace of data collection and the apparent lack of priority OSD, Navy and others are placing against the data collection and analysis effort.

(U//) I recommended the Navy CLA not forward this AAR to SECNAV, CNO and VCNO.

(U//) There are currently no Congressional UAP briefs planned or scheduled. However, SSCI PSMs communicated the UAP issue is important enough to possibly necessitate a SSCI Member brief request.

CAPTs, (b) (6)

Good afternoon. I talked with (b) (6) briefly today about the SSCI UAP briefing on 12 Dec while he was at ONI for the COMONI and briefings.

As discussed earlier there is a prep session between (b) (6) and the SSCI PSMs on Monday, 9 Dec to prepare for the brief. More specifically, they are basically requesting that (b) (6) do all the talking for the 10 minutes of briefing time allotted. The request will be for (b) (6) to summarize everything within that amount of time and then field questions from the Senators during the rest of the available time. (b) (6) and OUSDI will likely not be allotted any briefing time, but they will be provided opportunities to answer questions.

Will provide more information and specifics following the session on Monday.

CAPTs, All,

Good afternoon. Attached is the formal invite from the SSCI, specifically Chairman Burr, inviting the Navy and OUSDI to brief them on UAP issue.

FYSA, we already have a prep session scheduled with the SSCI PSMs on Monday, 9 Dec, to effectively prepare for the 12 Dec briefing.

Thanks for your time!

I wanted to update you on information that has just come to my attention related to the UAP topic. We just became informally aware that a media production company has reached out directly to aircrew from squadrons previously associated with UAP reports from 2015. A copy of one of these letters is attached; it was sent directly to an aviator's private residence. We are not sure how the company located these names and addresses; no such information has been released via the UAP data fusion process that you've been supporting. We assume they were located via aggregation of publically available information (e.g., using social media, LinkedIn, and public records) to search for people assigned to the squadron during the timeframes in question and then to physically locate them.

We are reaching out via AIRFOR/AIRLANT PAO channels to ensure these service members are not caught unaware, and that they know to refer all media queries to their PAO.

(b) (6)

My name is (b) (6) and I'm a political reporter working with Pineapple Street Media on new a new documentary podcast about U.S. military pilots' encounters with unidentified aerial vehicles. We've recently worked with Spotify, and we're now developing a documentary about how the encounters are affecting public belief in UFOs, and our national response to them.

Since you've flown hundreds of hours with the Red Rippers aboard the Roosevelt, many of them during Operation Inherent Resolve, I figured you probably also saw or knew something about what your squadron members (b) (6) and (b) (6) encountered: the unexplained aerial phenomena that've come to be known as the "Tic-Tacs."

I'm wondering if you would be willing to hop on the phone for a quick conversation about your squadron's interactions with these unexplained, whitish-oval objects in 2015. I'm happy to keep this call off the record, meaning I'd never use your name in any story, or tell anyone else that we spoke, unless you first OK'd it.

I am trying to make sure every fighter pilot or radar operator who participated in OIR has my contact information. You know the Rippers better than I ever could. I'd like your help to make sure I don't miss something important. We're trying to understand a little more about what was seen and I think you might be able to help us contextualize some of what happened and why it was and remains so unusual.

All my contact information is below, including details on how to reach me via secure, encrypted email. (If you want to send mail anonymously, mail a no-return address package to the street address below!) Thanks very much for your time, (b) (6) and your service.

Sincerely, (b) (6)

Good Evening,

The draft report is attached for your review. This report was drafted by myself and the N2N6 GC, and it reflects the facts as we currently understand them.

Please check for factual inaccuracies and provide any corrections to me by noon tomorrow (Thursday, 20 Feb). I apologize for the short timeline, however the DoDD requires an immediate report and several days have already gone by since discovery of this matter, thus making it urgent.

Thank you for your time and assistance, and I will forward TABs A and B once I can get them scanned in the morning (although there is nothing to fact check on either of those, FYSA). Please let me know if you have any questions.

Colleagues –

As many of you are aware, US Navy assets are having increasingly frequent encounters with Unidentified Aerial Phenomenon (UAP). Videos of at least three of these encounters have long been in the public domain, despite the fact that the Navy did not release the videos through official channels. Three such videos are the subject of a FOIA request; NAVAIR plans to release those videos shortly in response to that request.

(U) SECTION 2 – GENERAL INSTRUCTIONS:

1. (U) Purpose: This classification guide is issued for the purpose of identifying specific topics of information associated with the Office of Naval Intelligence, Unidentified Aerial Phenomenon (UAP) Task Force that meet the standards and criteria for classification and protection in accordance with Executive Order (E.O.) 13526, "Classified National Security Information," as amended, and its implementing directives.

2. (U) Authority: This guide is issued under authority of SECNAV M-5510.36 and E.O. 13526, DoDM 5200.01 Volumes 1-4. This guide constitutes authority and may be cited as the basis for classification, regrading, or declassification of information and material involved in UAP collection and analysis. Changes in classification required by application of this guide shall be made immediately. Information identified in this guide for protection as classified information is classified by the Director, Naval Intelligence Activity, a TOP SECRET Original Classification Authority.

3. (U) Classification Challenges: If at any time security classification guidance contained herein is challenged or temporary markings of a higher classification are made, the items of information involved shall continue to be protected at the level prescribed by this guide until a formal decision by an appropriate authority is made. Classification challenges should be addressed to the PR, noted in Section 1 above.

4. (U) Reproduction, Extraction and Dissemination: This guide may be reproduced and disseminated as needed. However, to ensure receipt of updates, revisions, and classification changes, whenever this guide is disseminated beyond an initial addressee, notify the PR.

5. (U) Public Release: The fact that this guide shows certain details of information to be unclassified, including controlled unclassified information, does not allow automatic public release of this information. DoD or Navy information requested by the media or members of the public or proposed for release to the public by DoD civilians or military personnel or their contractors shall be processed in accordance with DoD Manual 5200.01, SECNAV M-5510.36, DoD Directive 5230.09, DoD Instruction 5230.29, DoD 5400.7-R, and SECNAVINST 5720.42G, as applicable. Proposed public disclosures of unclassified information regarding UAP shall be processed through the cognizant NIA Freedom of Information Act Officer.

6. (U) Foreign Disclosure: Any disclosure to foreign officials of information classified by this guide shall be in accordance with the procedures set forth in SECNAVINST 5510.34A and Department of the Navy Foreign Disclosure Manual of September 2007. If a country with which the DoD has entered into a reciprocal procurement memorandum of understanding or offset arrangement expresses an interest in this effort, a foreign disclosure review must be conducted prior to issuance of a solicitation.

7. (U) Definitions: Unidentified Aerial Phenomenon (UAP): Any aerial phenomenon that cannot be immediately identified.

8. (U) Classification Authority Block:

Classified By: Mr. Scott Bray, Director, Naval Intelligence Activity

Reason: 1.4(c)

Declassify On: 20450415

(U) SECTION 3 – OVERALL EFFORT:

1. (U) Identification: Where information pertaining to UAP has been obtained or developed through the use of classified sources or methods, the proper classification of a resultant item of information or material will be the highest classification set forth in either this classification guide, or the classification guide or guides applicable to the sources or methods used to obtain the UAP information or material. Accordingly, information about UAP designated herein as SECRET//REL FVEY may well be TOP SECRET//SCI//NOFORN due to the sources or methods through which the UAP information was collected. In those cases where the sources or methods used to acquire the UAP information or material would lead to a higher classification level, the applicable SCG pertaining to those sources or methods should be cited as the classification authority, not this guide.

(b) (1) (B)

3. (U) Goal and Mission: The mission of the task force is to detect, analyze, catalog, consolidate and exploit advanced non-traditional aerospace vehicles posing an operational threat to U.S. National Security and avoid strategic surprise.

4. (U) End Item:

TOPIC	CLASS	Dissemination Control	DECLASS ON	REMARKS
REASON: All information in this section is classified per section 1.4(c) of E.O. 13526				
1. (U) Identification:				
1.a (U) The term Unidentified Aerial Phenomenon (UAP).	U	Not Applicable (N/A)	N/A	
1.b. (U) The fact that Navy pilots, and other Department of the Navy (DON) personnel, have witnessed, and that certain DON technical systems have detected, at unspecified times and places, UAPs.	U	N/A	N/A	
1.c. (U) The fact that the frequency of UAP sightings has increased in recent years, without any further information regarding when, where, or how often sighting have been reported.	U	N/A	N/A	
1.d (U) The fact that Navy has an ongoing effort to gain knowledge and insight into the nature and origins of UAPs, as well as their operations, capabilities, performance, and/or signatures.	U	N/A	N/A	
1.e (U) The fact that Naval Intelligence in general, and the Office of Naval Intelligence (ONI) in particular, has created a Task Force to gain knowledge and insight into the nature and origins of UAPs, as well as their operations, capabilities, performance, and/or signatures.	U	N/A	N/A	
2. (U) Goal, Mission, Purpose:				
2.a (U) The fact that the Task Forces mission is to detect, analyze, catalog, consolidate, and exploit non-traditional aerospace vehicles/UAP posing an operational threat to U.S. National Security and avoid strategic surprise.	U	N/A	N/A

5. (U) Relationships

(b) (1) (B)

¹ As noted in Section 1, para. 8, where information pertaining to UAP has been obtained or developed through the use of classified sources or methods, the proper classification of a resultant item of information or material will be the highest classification or what is stated in this classification guide or the classification guide or guides applicable to the sources or methods used to obtain the UAP information or material. Accordingly, the classification level noted below may be incorrect if the source or method used to collect the information dictates a higher level of classification.

(b) (6)

(b) (6) has been working this with the USDI POC all week...

The goal is to get concurrence on a formal USDI memo establishing the TF as directed by Congress.

This is the paperwork catching up with the effort... (b) (6) has been leading this TF effort for over a year.

(b) (6) has sent it to Scott Bray/DDNI for his review.

Either (b) (6) or Scott can/will give the required SES/FO drop.

So there should be no further action needed by N2N6C or SE.

Regards,

Joe

=====

Admiral/DDNI/COMONI,

Please see below for the AAR regarding the OUSD(I&S)/ONI briefing to SSCI on UAPs.

Summary: On 23 June, representatives from OUSD(I&S) and ONI participated in a secure VTC with members from the Senate Select Committee on Intelligence (SSCI). The call was in response to a formal request to VADM Trussler, dated 10 June 2020, and was led by (b) (6) Director for Defense Intelligence (Collection and Special Programs), and Mr. Scott Bray, DDNI. Generally speaking, the information briefed by (b) (6) JAP Task Force Lead, was well received by the 10 senators and committee staff in attendance. SSCI remains highly interested in the topic and repeatedly expressed their desire to support ongoing collection and analysis, noting SSCI (b) (1) (B) in their Intelligence Authorization Act.

Key Takeaways:

(b) (1) (B)

(b) (1) (B)

Due Outs:

1. None. SSCI will likely request a follow up brief in 6-9 months.

(b) (1) (B)

PARTICIPANTS:

- Sen. Marco Rubio (R-FL), Acting Chairman- UAP Advocate
- Sen. Angus King (D-ME) – UAP Advocate
- Sen. Richard Burr (R-NC)
- Sen. Martin Heinrich (D-NM)
- Sen. James Risch (R-ID) - UAP Cynic
- Sen. Michael Bennet (D-CO)
- Sen. Ben Sasse (R-NE)
- Sen. John Cornyn (R-TX)
- Sen. Susan Collins (R-ME)
- Sen. Tom Cotton (R-AR)
- Various Committee Staff

BRIEFERS:

- (b) (6)
 - Mr. Scott Bray, Director/Naval Intelligence Activity
- 

OLA REPRESENTATIVES:

(b) (6)

I appreciate the briefers' support, as always.

V/r,

Scott,

Have someone prep me a simple ghost e-mail I can send to CNO on UAP.

(b) (5)

When the people back home in Oklahoma are now asking me about UAP/UFOs and do I have inside knowledge, you know you have a gold mine of a topic!

Vr, JT

No doubt SSCI's intent was for support to the TF (b) (6) is leading. Not sure the best way to do this, but it is definitely worth a Monday morning conversation with (b) (6) to meet the Monday COB deadline.

(b) (6)

Adding you to the distro for the Security Classification Guide regarding the UAP Task Force.

If you both would like... I could share with you the classified brief on the UAP topic.

(b) (1) (b) (6)

Sue Gough from DOD has the PA lead... but she and I are closely linked in all aspects of this.

(b) (6) is the Navy SES who leads the effort.

He has been up to the Hill multiple times (and even briefed Treasury Secretary Mnuchin yesterday).

(b) (6) tells me that (b) (6) and NIM Aviation USAF Maj Gen Pete Lambert are well versed in the topic and efforts.

Regards,

Joe

(b) (6)

As you get deeper into the UAP issue, it would be helpful if you had the SCG that (b) (6) (cc'd) put in place.

(b) (6)

the lead for the Task Force.

Standing by if you have questions.
